Hardener:	not required
Thinner:	not required

### Processing

	Nozzle: 1,8 – 2,0 mm Pressure: 2,5 bar		Can also be applied with a roller or brush.
	The surface only needs to be coated with a thin, closed film.		approx. 7-8 m <sup>2</sup> with 50µ layer thickness

Stir well before application or shake the canister well.

Clean tools with water.

Temperature resistance: 60°C,

At higher temperatures (70°C - 90°C), monthly renewal of the adhesive layer is recommended. This prevents faster drying out.

If necessary (depending on the utilization of the paint shop), remove the layer every 2-4 weeks, Simply remove from the substrate with water (without cleaning additives) (sponge, brush or pressure cleaner).

Only use on fully cured painted surfaces.

Water-based, so not for use on rust-sensitive surfaces.
